

Easy Termination Tool

The tool for fast and precise removal of pair screening for PiMF cables of exactly equal lengths. The built-in bracket makes inserting wires easier.

Product features

Extremely precise and fast removal of pair screening in PiMF cables.

All films are removed at exactly the same length. This ensures that the distances of the four films shields match the available space on the GG45.

The integrated holder for the wire manager simplifies insertion of the cores. Simple handling for quick and reproducible stripping results.

An application description is included. The insulation-displacement connectors are adjustable and replaceable.

Technical Data

Classification:

ETIM 5.0 Class-ID: EC000385

ETIM 5.0 Class-Description: Special tool for communication technology

Note

Caution! The Easy Termination Tool should be used for GG45 installation
